

**STX 519**

## Lifting bridle systems

The range of lifting and pulling systems has been developed following intensive research by Spencer in collaboration with the most qualified manufacturers of safety nylon ropes. These lifting systems become protagonists of a process of functional and aesthetic innovation with the creation of a brand new range of colours and coatings in order to adapt to the continual transformations required by rescue.

**TECHNICAL DATA**

Tape length	maximum 1680 mm minimum 1250 mm
Tape width	50 mm / 20 mm
Traduci da: italiano	
Weight	1,8 kg
Material	nylon, aluminum, steel
Type of fixing	carabiner
Traduci da: italiano	
Number of mounting brackets	4
Compatibility	all basket stretchers
System Range	450 kg (1000 lbs)

STX 519 adjustable lifting bridles
