

LIFE GUARD

Professional life-saving buoy

A tapered life-saving device; pointed at the front, in rigid plastic equipped with handles on the sides and at the back. Made in medium density polyethylene without seams, it guarantees good buoyancy and is hydrodynamic. The method used in moulding renders it robust and therefore usable also for rescue operations and special recoveries; it is ideal for beach patrols and irreplaceable in multiple and scuba diver rescues. A rot-proof shoulder strap in polypropylene and its floating top make Life Guard a very suitable buoy for the professional water rescuers.

TECHNICAL DATA

Dimensions	250 x 110 x h680 mm
Weight	1,2 kg
Material	Polypropylene
Latex free	

Life Guard orange

SR10000A
